

Panini gelato

Panini Gelato is a new concept for frozen dessert businesses seeking a novel approach to desserts. Creamy scoops of gelato or frozen yogurt are neatly spooned onto a golden, sweet bun combined with a savoury or sweet Arabeschi® and/or topping, and then lightly pressed to perfection using a state-of-the-art machine to create Panini Gelato. Assembled on the spot, the bun takes the place of a cone, cup or cookie and is served either sliced on a plate, or as a full sandwich served in a wrapper for a more on-the-go solution.

To Create a *Panini*gelato You will need...

PreGel's Gelato Panini Press is a light-weight, easy-to-use machine that toasts and seals a sweet bun filled with gelato, soft serve, ice cream or frozen yogurt and toppings to create a sandwich that's warm on the outside and cold on the inside. The concept is one for businesses looking to expand their frozen dessert offerings in a new and exciting way. Panini Gelato allows for a unique, imaginative approach to menu development.
